

# Official 2023 SkillsUSA North Carolina Contest List

The following is a list of contests that will be offered at the SkillsUSA North Carolina State Conference. In the left-hand column, an “N” signifies that the contest advances to the national level; an “S” signifies that the contest ends at the state level and has no national competition.

The next column provides the contest name.

The third column states the size of the team; if the column is blank, it is an individual contest.

The last column provides the number of competitors/teams that each advisor/school is allowed to have per contest. **\*Where the limit is identified as “per advisor”, this is interpreted as “per registered advisor”. Some contests have limits based off of the number of instructors registered in that trade area.** Additional contest information will be available on our competitions guidelines page - [www.skillsusanc.org/competitions\\_guidelines](http://www.skillsusanc.org/competitions_guidelines).

New contests or changes to contest numbers are identified in **yellow**.
